

**"MADE IN THE U. S. A."****IS SLOGAN OF CAMPAIGN**

Bulletin Will Show Advantages of Making Goods, Heretofore Imported, in This Country.

BEING COMPILED BY EXPERTS

Domestic Blown Glass and Toy Industries. Receive Impetus—Manganese Deposits in North Carolina and Tennessee Neglected.

[Special to The Times-Dispatch.]

NEW YORK, August 29.—The National Association of Manufacturers, which has been gathering vital statistics and information for delivery to the trade regarding the opportunities which the European war has brought to the doors of the American manufacturers, has in course of preparation its first bulletin, which probably will be ready on Monday.

William M. Donney, manager of the foreign trade department of the association, is at the head of a staff of experts compiling these bulletins which will show the advantages of making in this country the goods that have been extensively imported, and the possibility of making suitable substitutes.

The association has found that vast deposits of manganese in North Carolina and Tennessee have been neglected, while Austria-Hungary and Russia have been supplying the American market. Manganese has advanced 12 cents per pound.

"Made in the United States of America" is to be the slogan of the campaign. Advertising on a large scale is to be done.

Domestic blown glass has received a great impetus. Imported ware to the amount of \$10,000,000 having come in last year. There is a strong demand for cut glass, and pressed wares will soon be affected.

American toy manufacturers are straining every nerve to meet the enormous demand. Factories are running day and night. In addition to the \$2,000,000 worth of toys America has manufactured heretofore, \$2,000,000 worth usually imported, chiefly from Germany, must be supplied in the remaining months before the holidays.

Domestic pottery is already extending their factories, and the manufacture of several lines of special porcelain ware is to be taken up here at once. These lines are made from special bodies of clay, and their manufacture has never before been attempted in the United States. Domestic orders for twenty-six carloads have just been placed by one Eastern concern.

After a long executive session of the Mayor's Food Committee today, chairman George W. Perkins was asked for a report of the committee's activities. He delivered a proclamation appertaining to the quality of American-made macaroni.

"The Italian government only the other day shut down on the exportation of macaroni to this country," said Mr. Perkins. "Now here in the United States we make macaroni which I am told is preferred in South America to the Italian brand."

"Our macaroni ought to be every bit as good as the imported and I have no doubt that it is. It can be made here, and it is simply a matter of arousing interest and stimulating manufacture. It doesn't require a long look ahead to see that in time we shall probably be able to make here all the macaroni we need at home."

**FUGITIVE FROM LOUVAIN DESCRIBES EXPERIENCES**

This City Destroyed, Valuables Taken From Him, and Whereabouts of Wife and Children Not Known.

AMSTERDAM, August 29, via London (U. P. M.).—The Rosendael correspondent of the Heralds' Londoner interviewed a fugitive from Louvain who gave his experience in that city. "Monday evening," he said, "gun firing suddenly resounded in the streets. I did not know its meaning, but some declared the German troops had fired upon each other. The Germans, however, insisted the shots had been fired by the inhabitants and that several soldiers had been killed."

"The fact is that throughout the night heavy field guns bombarded the town, destroying many houses. We sought the shelter in a cellar, and at day break prepared for flight. We hurried to the railway station, where the refugees were parted, the men being placed on one side and women and children on the other side of the station square. Near the statue of General Van Wewert, in front of the station, we saw bodies of six burghers who had been shot. The town was now one flaming mass. At last, escorted by German soldiers, we walked to Campenhout, where we witnessed the shooting of seven priests in a group."

"Our party of seventy-three men, handcuffed like criminals, was locked in a church. Additional prisoners arrived at intervals. Outside, the lamentations of women and children arose. Within the church an imprisoned priest gave absolution. When we left the building Campenhout was burning fiercely. We were told we would be freed, but must return to Louvain. Returning to that city I was once more taken prisoner and driven in front of German soldiers across the country without rest or food, and used with other prisoners as a cover for the troops."

"When we arrived within a short distance of the Belgian outposts I received permission to go my own way. I arrived at Malines, proceeded on a military train to Antwerp. I am unaware of what has become of my wife and children. All my valuables were taken from me. I was told that the burgomaster and a number of prominent men of Louvain were shot. The city has been cut off from communication with the outside."

**SUPERFLUOUS HAIR BANISHED LIKE MAGIC**

New Wonder Supersedes Dangerous, Disfiguring Electric Needles or Burning Pastes, Powders or Liquids.

Every woman who suffers the annoyance of superfluous hair and who has had any or all of the worthless advertised remedies in a frantic search for lasting relief, will rejoice to learn that an entirely reliable method has been found which quickly and painlessly eradicates all signs of hair growth, no matter how bad, and produces quick and positive results in every instance. It is the only method that never fails to remove all signs of superfluous hair completely, painlessly and without injury to skin or complexion. In a surprisingly large number of cases it has succeeded in killing the hair source of all growth, so that it has never returned. Tragle Drug Co. have been good to find a supply of Mrs. Osgood's Wonderful Hair Remover, which you can get at any other up-to-date drug or department store. Ask for it. Money-back guarantee that comes in every package. Ask for it by name, Mrs. Osgood's Wonderful. There is no danger in this amazing discovery, to even the most sensitive skin, but it should not be used except where final destruction of the hair wherever applied is desired. Advertisement.

**MORE APPEALS FOR HELP TO AMERICAN RED CROSS**

WASHINGTON, August 29.—New applications from Europe have caused the American Red Cross to increase the corps of doctors and nurses who will sail by chartered steamer soon for Northern Europe. In addition a Serbian unit, comprising three surgeons and twelve nurses, will sail from New York about September 8, and travel into Serbia by way of Pyrenees and Salonika. The American contingent, comprising ten or more units, will sail directly for ports in Northern Europe.

Red Cross officials were informed today that the British government wished to make sure of some of the organization's surgeons and nurses aboard a hospital ship. The British ambassador here, Sir Cecil Spring-Rice, informed the State Department today that his government would recognize the neutrality of the Red Cross chartered steamer, no matter what the nationality of the owners. The ship which may be obtained from a German line, will fly the American flag by special act of Congress.

Requests for supplies reached Red Cross headquarters today from Turkey. Ambassador Morgenthau at Constantinople sent word that the mobilization of the Turkish army had caused suffering among thousands of families, although the country is not at war. He asked shipment of supplies, which could not be obtained, the message said, in Turkey or neighboring countries.

**An Approaching Marriage.**

FREDERICKSBURG, VA., August 29.—Professor E. F. Breckhead, Jr., superintendent of schools of this city, and Miss Mary E. Kings, of Kent, N. C., will be united in marriage at the home of the bride on October 3. They will make their home in this city.

**Knitting Mills Forced to Close.**

WAKEFIELD, MASS., August 29.—The Harvard Knitting Mills, employing more than 1,000 hands, announced today that the plant would be shut down for a month, because of inability to obtain materials from abroad.

**RASH OVER BABY'S HEAD AND BODY**

Scurf on Scalp, Grew Worse, Very Restless, Formed Crust, Used Cuticura Soap and Ointment. Trouble Disappeared.

1341 Parkwood Pl., N. W., Washington, D. C.—When my babe was about two weeks old I noticed a scurf on her scalp which gradually grew worse. It started with a fine rash over head and body and made her very restless at night. The rash left the thick scurf on her head. We used

—a well-known anti-septic, and other remedies recommended by friends, but nothing seemed to do any good. This continued until she was three months old and by that time it had formed sort of a crust, so that her scalp never looked clean. It was especially bad on the soft part of the head. Nothing helped until we used the Cuticura Soap to bathe her and Cuticura Ointment to anoint her. They acted like magic, clearing the scalp entirely. The trouble disappeared. (Signed) Mrs. H. L. Anderson, Mar. 20, 1914.

Samples Free by Mail

Care for your hair with Cuticura Soap and Cuticura Ointment. They keep the scalp clean and free from dandruff, allay itching and irritation and promote natural hair-growing conditions when all else fails. **Miller & Rhoads**

Presenting Advance Fall Fashions in

**Dresses and Suits**

For Women and Misses

Fall modes now have the stage, and in our Garment Salons we are exhibiting in great numbers the up-to-the-minute ideas of famous designers of this and other lands. In accord with the Miller & Rhoads high standard of excellence, we feature only garments that are correct in style, and perfect in both workmanship and quality. The new styles themselves are lovely; among them there is much that will interest you.

**Smart Autumn Dresses**

Of Serge, Satin and Crepe—\$24.95

For street and dress wear we are showing special Satin Dresses in colors and black. These are made with the full plaited, long tunic skirt; wide girdle effect with white vest and standing collar; long sleeves that fit tight. And there are lots of other models, equally pretty, at this special price.

**VERY SPECIAL!**

New Crepe Dresses at—\$10.75

Dresses of finest quality silk crepe which, at this price, are REALLY WONDERFUL! An entirely new fall model, long tunic skirt, wide girdle, with lace and small button trimming—long set-in sleeves. In All Popular Colors and Sizes!

These Dresses must be seen to be appreciated. Special at \$10.75.

**New Autumn Suits**

Many Distinct Models at \$24.95

These will be found in such popular materials as broadcloth, Gabardine, French serge and diagonals—in navy and Copenhagen, blue, green, plum, negro brown, grey and black.

Entirely new features in coats are the short waist effect in front together with an extra long back, some of which are buttoned high at the neck, giving a double-breasted effect. These Suits make a very rich appearance and, at \$24.95, are exceptional value.

**Capes Will Be Very Popular This Fall**

They are just the thing to slip on over your light dresses.

at \$5.98

Are all Wool Shepherd Check Capes with patch pockets and a striped silk collar that's quite nobby; large pearl button trimming.

In Misses' sizes; also Women's up to 40 bust.

**Silk Jersey Top Petticoats**

\$4.98

Only Jersey of the finest quality is used in these Skirts, the flounce of which is of guaranteed messaline.

In black, amethyst, taupe, green, navy, royal and other popular autumn shades; assorted belts and lengths.

These Petticoats wear amazingly well, and are excellent value.

**The New Fall Blouses Are Tailored**

A lace Blouse would, of course, find some difficulty in living up to a "tailored" reputation: still its sleeves are now "set-in" and its lines are simple and straight—quite in tune with tailor-made fashions.

Lace promises to be very popular.

at \$3.98, \$5.98 and \$8.75

We are exhibiting nice assortments of New Fall Blouses; in lace, also in chiffon and crepe.

**The New Skirts**

Are More Comfortable to Walk in

The "separate" ones we're showing are more picturesque than skirts have been in several seasons.

Styles range from box-plaited and accordion plaited to plain, long tunics, made of such materials as serge and-satin, gabardine, poplin broadcloth and plain serge—all new and decidedly pretty.

\$3.98 Up to \$19.00

Second Floor.

Northwest Corner Third and Broad.

"THE BIG STORE WITH THE LITTLE PRICE."

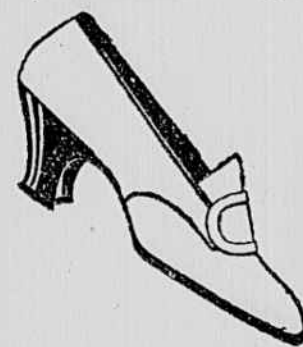

**Miller & Rhoads**

Madam

Have you taken advantage of this very remarkable sale of

**Sorosis Shoes?**

Selling NEW SHOES at CUT PRICES is by no means a pleasant occupation for Sorosis manufacturers. Perhaps nothing else but the great European war—which prevented all exports of shoes to the countries affected by it—could have produced such a condition.

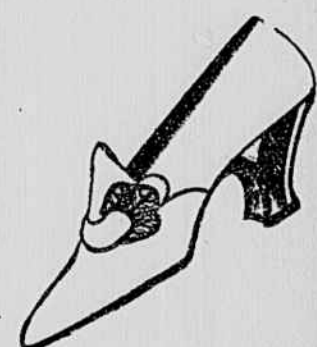

With ports indefinitely blocked and the warships of the several warring nations roaming the seas, preying upon commerce, we have no means of knowing when transportation facilities will be resumed.

In addition to the large shipments of Shoes held up at the New York wharves other lots are in the SOROSIS stock rooms and still others are in process of manufacture.

All these Shoes meant for our fine, critical export trade are just right for the season—and their beauty appeals to refined taste.

Americans who travel abroad

know that SOROSIS SHOES are sold in special stores or departments in all the large over-sea cities. They are distinctly and emphatically THE INTERNATIONAL SHOES—enjoying the same prestige and popularity in foreign countries that they do at home.

The immense amount of capital invested in these estopped goods precipitates this "WAR SALE OF SOROSIS"—which offers direct and substantial savings to purchasers.

It is an acute, peculiar, unexampled situation productive of remarkable opportunities.

**Note the Enormous Reductions**

ALL SOROSIS \$6.00 AND \$7.00 LOW SHOES AND PUMPS—All materials, including patent colt, gunmetal, tan calf, vici kid, swedes, satins, white canvas and buckskin; during this sale **\$3.85**
